

## Amber Jansen

A persistent, determined and adaptable web developer, who enjoys creating and maintaining responsive websites. Having strong problem solving skills, with a readiness and eagerness to learn, developed by keeping up to date with coding best practices, and building websites. Motivated, reliable, able to work to deadlines and enjoys working in a team, demonstrated by previous work experience, working closely with people.

### EDUCATION

#### Self taught web developer

September 2019 - Current

Front end web developer primarily utilising javascript, html 5, Sass, CSS, Gatsby, GraphQL and React, WCAG, Bootstrap

#### My portfolio — Gatsby | ReactJS | SCSS | GraphQL

Portfolio site designed and coded from scratch to showcase my skills and past work.

#### Annette's Art — Gatsby | ReactJS | SCSS | GraphQL

Explore beautiful, eye catching Urban Artwork. With a creative and responsive design in mind, with mobile layouts and menu, a combination of CSS grid and flexbox were used. GraphQL queries add to this by loading the optimal size of image for each device size and screen resolution.

#### Weather website — Javascript | CSS

Users can use this application to check the weather in any location, pulling in data from Open Weather Apps API which displays updated real time weather forecasts. Dynamically swaps background images and icons depending on the weather type.

#### Gifspot — Javascript | CSS

Gifspot allows users to explore the best and newest gifs, straight from GIFFY's API, it returns the most relevant GIFs based on a user's search query, and also has the ability of pulling in more data when the user scrolls to the end of the page.

#### Chesterfield College, Chesterfield — NVQ Level 2 in Hairdressing

September 2010 - July 2012

Practiced skills with peers as well as providing treatments for paying customers in a commercial setting.
