

Amber Jansen

Self-taught, passionate about web design and development, who enjoys creating and maintaining responsive websites. Eager to learn more in this fast-paced industry. Strong problem-solving skills, developed by keeping up to date with coding best practices, and building websites. Team-player who can also work independently, demonstrated by previous work experience.

Relevant Experience

Self-taught Web Developer

2019 - CURRENT

Front end web developer primarily utilising javascript, html 5, Sass, CSS, Gatsby, GraphQL and React, WCAG, Bootstrap

My Portfolio — Gatsby | ReactJS | SCSS | GraphQL

<https://awesome-shockley-6f6604.netlify.app/>

Portfolio site designed and coded from scratch to showcase my skills and past work.

Annette's Art — Gatsby | ReactJS | SCSS | GraphQL

<https://competent-lamarr-421e1b.netlify.app/>

Explore beautiful, eye-catching Urban Artwork. With a creative and responsive design in mind, with mobile layouts and menu, a combination of CSS grid and flexbox was applied. GraphQL queries add to this by loading the optimal size of images for each device size and screen resolution.

Weather Website — Javascript | CSS

<https://priceless-clarke-1f2a18.netlify.app/>

Users can use this application to check the weather in any location, pulling in data from Open Weather Apps API, which displays updated real-time weather forecasts. Scores 100 on Google lighthouse.

Gifspot — Javascript | CSS

<https://reverent-benz-c5fd0e.netlify.app/>

Gifspot allows users to explore the best and newest gifs, straight from GIPHY's API, which returns the most relevant GIFs based on a user's search query. When the user has scrolled to the end of the page, more Gifs are loaded.
